

IN THE SPECIFICATION:

Please replace the paragraph beginning at page 10, line 3, with the following rewritten paragraph:

a1  
--Figure 5 shows an image 48 that has been applied to the outside of projector globe 14. The image 48 shown is of Santa Claus in his reindeer drawn sleigh in keeping with an intended use of the ornament of the present invention as a Christmas tree ornament. Figure 6 shows a bulb 26 which is an incandescent lamp in a clear envelope. When the projector globe 14 is rotated, the light from the bulb 26 projects the image 28 onto the translucent projection screen globe 16. Due to rotation of the projector globe 14, the image 48 is seen by a viewer as animated or moving. --

IN THE CLAIMS:

Claims 1, 4, 13, 18 and 20 are amended as follows:

a2  
cont'd  
--1. (Amended) An apparatus for displaying images, said apparatus comprising  
a light transmissive inner hollow body having a central axis and a surface with images thereon,  
a single electric light source inside said inner hollow body,  
an outer hollow body surrounding said inner body and having a common central axis, said outer hollow body comprising a light transmissive material which serves as a projection screen, whereby said images can be projected onto said projection screen by said light source, and
